

Main Business

CRS is a designer and manufacturer of Industrial Power Equipment based on high-frequency switch-mode power supply technology.

CRS offers a complete line of switch-mode rectifiers for the Metal plating and finishing industry.

CRS also offers inverters for hot spot welding and arc welding applications.

Founded in 1998.

Products

- > QUASAR - switch-mode rectifiers
 - DC** - Direct Current (forward)
 - DCR** - Direct Current Reverse (forward and reverse)
 - PP** - Pulse Plating (forward)
 - PPR** - Pulse Plating Reverse (forward and reverse)
- > HSW – Inverters for Hot Spot Welding
- > AWS – Inverters for Arc Welding system

Service Centers
